PASTOR AND THE PULPIT †

The Word

There is nothing more important in and to the life of a Christian than the word of God. With it, the Holy Spirit feeds us and teaches us all we need to know about Himself and He equips us to remain in this world as a force for His kingdom.

There are those who find Scripture memorization difficult and even believe they can't do it. However, God has told us to "hide His word in our heart" and that the Holy Spirit would work with us to be the enabler of that activity. Believe me, He will do His part.

It is through a continual baptism in His word that we remain a viable force for the kingdom. In the Old Testament they were told to think about it and talk about it all the time. So should we.

Pastor Mike

Long Beach Rescue Mission lunch project

In the past our youth group along with adult volunteers has assembled and packed sacked lunches for the Long Beach Rescue Mission. On Monday night December 12th they did it again with two exceptions. The Cypress West Church youth group joined in

First Baptist Church Communiqué

the project and the lunches went to a temporary cold and bad weather shelter.

Supplies and moneys for the sack lunches were donated.

The plan was to make a150 meals and the group went over this amount. Good job all!

Below are some photos of the happy packers. Note that the grouping is made up from the very young up.

Genesis

Genesis is probably the most controversial book of the entire Bible and yet new technology is proving its authenticity. God's Word doesn't change, but evolutionary ideas and beliefs continually change. Yet nothing in operational science has ever contradicted the Bible's account of origins.

- It has been charged that Moses borrowed from the pagans the story of creation. It is probably vice versa for more than 17, 000 clay tablets have been found noting Genesis creation that pre-dates the Babylonian account by about 600 years.
- Genesis list the steps of creation much the same as scientist list the formation of space and the earth.
- Steps of creation had to come from Devine revelation because of the accurately of Genesis could not come from man.
- New Scientist magazine 05 November 2010 "Earth may have had water from day one"
- A new model of the early Earth suggests that until around 2.5 billion years ago oceans covered almost the whole of the planet.
- Evolutionists believe that matter can think so do idol worshiper and those who trust Good luck charms.

If someone has enough money to live well and sees a brother or sister in need but shows no compassion—how can God's love be in that person? 1John 3:17 New Living Translation
